Amazon.com: aashto green book: Books

For high speed design (> 50 mph), the superelevation rates in the 2004 Green Book are almost identical to those in the 2001 Green Book. For low speed urban streets, use of superelevation is optional, as it was in the 2001 Green Book. Where superelevation is used, the 2004 Green Book presents the superelevation rates in a new table and revised ...
