To do a cost analysis, start by calculating the direct costs for your program, which include things like salaries, supplies, and materials. If you're doing a long-term cost analysis, break the costs up into weeks or months. Next, calculate the indirect costs, which are costs that are shared across multiple programs or services.

### How to Do a Cost Analysis: 14 Steps (with Pictures) - wikiHow

revenue), and most of the revenue is used to pay operating costs, which include salaries. 4. After paying costs (and taxes), the company can do three things with its cash profits. One, it can (or probably must) pay interest on its debt. Two, it can pay dividends to shareholders at its discretion. And three, it can retain
