Factfulness

Factfulness: The stress-reducing habit of only carrying opinions for which you have strong supporting facts. When asked simple questions about global trends - why the world's population is increasing; how many young women go to school; how many of us live in poverty - we systematically get the answers wrong.

Factfulness: Ten Reasons We're Wrong About the World - and ...

"Factfulness by Hans Rosling, an outstanding international public health expert, is a hopeful book about the potential for human progress when we work off facts rather than our inherent biases." - Former U.S. President Barack Obama "Wonderful... a passionate and erudite message that is all more moving because it comes from beyond the grave..."

Factfulness: Ten Reasons We're Wrong About the World--and ...

One frequent and recurring theme of Factfulness is the notion that the world is getting better. It also stresses that many people think the world is getting worse when, in fact, it is not. The survey at the beginning states that with over 10,000 poll recipients 80% knew less about the world than chimps would have [had] they just guessed.

Factfulness: Ten Reasons We're Wrong About the World - and ...

Factfulness is the skill to recognise the common types of stories that tend to get all the attention because they trigger our dramatic instincts. In the book Factfulness the three founders of Gapminder describe in practice how to use these rules of thumb in all kinds of situations and illustrate it with vivid stories from real life situations.
